London Times, of September 25th, says:

"In addition to this, owing to her screw shift being unsupported by the sternpost, it has worn away some inches of the bearings, which mist, even in its present state, cause a good deal of vibration when the screw is in motion, and would, if let go further, materially shake the vessel. In all line-of-battle shipe, the screw shaft is invariably supported by the sternpost, and the above injury to the bearings of the Great Eastern's shaft would make it appear that in large vessels it is indispensable, although engineers differ very much as to its advisability.—
Three, also, out of four leading points of her series have been injured, it is supposed, during the gale she encountered in Holyhead harbor, when the ill-fated Royal Charter went down."

Littors Louisville Courier: The little dogs and all, Iray, Bianche, and Sweetheart, for a moush or two past, have been barking at the heels of Mr. Secretary Thompson, on the subject of the eighth census. A persistent effort seems to be making to create the impression that in the organization of the Census Bureau, the grave uatonal interests involved in this great work are to be sacrificed and placed in the hands of only "Disminionists and fire-enters," without regard to competency or honesty. The Journal of the linear the distribution of the competency of honesty. The Journal of the latent instant dignifies these rumors, which have been deating about in the New York and Washington papers, by concentrating and glying them through the shape in an editorial headed "Hon. Jacob Thompson and the Eighth Census." It is no part of my purpose to enter into a general defence of the Sewretary, but happening to know that the facts of the ease completely contradiet the charges made, it seems to me important to correct a misrepresentation so unjust to him and so injurious to the great work now in his charge.

correct a misrepresentation so unjust to him and so injurious to the great work now in his charge.

The sum and substance of the accusations in this matter are, that the Secretary and his aubalterns have played into each others hands, and that un applicant for office who does not accord with the disunion and fire-eating sentiment of Mr. Thompson, has any chance to be called for examination; or if called, that he will he suffered to pass, whatever his abilities may be. It is claimed that this is "undeniable, beyond peradventure." From the beginning of the examinations to the present time, your correspondent has been intimate with many of the applicants, and has other present time, your correspondent has been intimate with mismy of the applicants, and has otherwise had a good point d'apperi for observing the operations of the plan for organizing the Geusus Burean. The lact stated, of grave errors in the seventh census, has distanted the rigid examination which has been instituted, and so far, out of the sixty-five clarks appointed, I am satisfied that (incredible as it may sound in these degenerate days of the republic) the lod Jeffersonium lest has been strictly applied: "Is he faithful, honest, and capable?" I know that no political influence, however potential, pressed, or flery, has availed when the applicant proved to be incompetent for the peculiar work of the Barcau. Protegos of the President, even, have been rejected, and I am cognizant of many linstances where not the slightest inquiry has been made to the political antecedents or the present where not the slightest inquiry has been the political antecedents or the present of the applicants. Vermont, New airc, Massachusetts. Pennedvants.

of the applicants. Vermont, New c, Alassachusetts, Pennsylvania, and thern and Western States I know to represented among the appointments ale as Mississippi or any of the "fireates, if not more so; and I know of tion for the grave charge referred to, a mertifying disappointment of those except the mertifying disappointment of those who have been "weighed in the halance and pund wanting," or who, in the multitude of applicants, have not succeeded in being called for examination. So entirely free, I believe, has the organization of the Census Bureau been from the influences common in almost all the departments of Government, that I regard the Secretary of the Interior is entitled to praise from all parties, and it is in this conviction that I have taken up my pen to correct the misrepresentations which have gone abroad from Washington against him on this subject. In the very nature of the case, these charges are unfounded. The work is of such a character that an incompetent clerk would be a complete nulsance, and such an appelniment would only "return to J lague the inventors."

With regard to "the subalterns of the Secretary," it appears to be generally conceded that

wished an appointment would only "return to plague the inventors."

With regard to "the subalterns of the Seeretry," it aip pears to be generally conceded that SuperIntendent Kennedy is the right man for the place, not only from his experience in the last census, but from his other peculiar qualifications. Certainly he should be in "good odor" with the Journal, as he was turned out by President Pierce for being too good a Whig, and, I yenture to say, was not re-appointed by President Buchanan for any fire-eating proclivities. The fling at Gen. Wagner, the Chief Clerk of the Burcau, as "a man of very ordinary abilities," in the estimation of all who know him is nost undeserved. He has been in the public service, in a variety of positions, for several years, and as he has proved himself efficient in all, there was ample reason for his appointment to his present post. His salary, by the way, is only \$2,000—not "\$2,200—and if "the laborer is worthy of his hire" in any Bureau of the Government, those of the Ceuvas will surely ear their wages. The Chief Clerk is emphatically a working man, and will require of his "anbalterns" to "follow suit."

This is the doctrine which the friends of Mr. Douglas are attempting, or, rather, did attempt, to thrust down the throats of an nawilling and indignant people. It is because the Democrats of the slaveholding States, and national men everywhere, refused to indorse and stand upon this "Abolition policy," and adopt this "most swift, unerring, and destructive agency of anti-slavery ever conceived in the fertile brain of the North," that the "Little Glant" and his followers prevented a nomination at Charleston, and finally as the representative of this infernal contrivance of the most reckless and unprincipled of the enemies of slavery and the South that Dorglas and Johnson are supported now, and for it every vote given to them will be recorded. Of course, the supporters of Mr. Douglas, and the advocates of this "alter ego of the Wilmot Proviso," are auxious to fortify their position and justify, if possible, their course by the authority of respectable names. Hence, during the pending canvass, the friends of Mr. Douglas have endeavored to maintain the doctrine upon which they stand, not by argument, but by garbled extracts from speeches of leading Dem ocrats, litended to show that others then and now regarded as orthodox and sound have in times past advocated Squatter Sovereignty .-For this purpose, and for no other, a short, imperfect, unreliable, and incorrect report of a speech made by Mr. BRECKINRINGE at Tippecanoe, in 1856, was seized upon, its language

And not only i. Mr. BRECEINBIDGE right as to his own position-not only did he not in 1856 advocate Squatter Sovereignty-but the Demoeratle party of the nation was then against the assertion of this doctrine, and the people of the whole South were bitterly opposed to it. If Mr. BRECKINHIDGE believed, in 1856, that the people of the Territories, while in a Territorial condition, can exclude slavery from their limite, or abolish It therein, he differed from the Louisville Democrat and the leaders of those now in favor of Mr. Douglas in the South, all of whom theu repudiated the doctrine they now make a test of political orthodoxy. Sovereignty, and Does not that

nal's conrac! emy of slavery THE MOST SWIFT, UN ERRING AND DESTRUCTIVE AGENCY OF ANTI-BLAVERY EVER CONCEIVED IN THE FERTILE BRAIN OF THE NORTH." Is it because Mr. HENDRICKS is the advocate and representative of Squarter Sovereignty, which the Jonrual believes and has soid is the most deadly weapon of Northern fanalicism in its war upon slavery, that it was so desirous that he should be elected and the canse of its regrets over his defeat?

Another Secessionist. The Frankfort Commonwealth, the State or gan of the Union saving branch of the Opposi tion in Kentucky, edited by an avowed Douglas

man, though keeping at the head of its columns the names of John Bell, and Edward Evermrr, (so close is the alliance in this State,) in its leading editorial of the 18th of October, 180, (yesterdsy) takes this bold and strong ground in favor of the doetrine of the right of a State to secede from the Union:
The Right of Succession.

The Right of Secession.

We \* \* \* are one of the few who believe, with John C. Calhoun, that States have a right, under the Constitution, to secede from the Union, whenever anajority of the people prefer secession to a continuance in the Tulion. We believe it to be in secondance with the genius of true Republicanism, that each State shall decide—not only upon its own domestic affairs and Institutions—but that it has the constitutional right to elect for itself, its future destiny.

We recard all this talk about "whiching in

We regard all this talk about "whipping in the accessionists has lible and almost as contemptible axis the effervesonce of extreme Southern whisky and patriotism. If the people of South Carolina, Alabama or Georgia, desire to secode from the Union, in the name of the Constitution let them doso. Let them form a Republis, an Empire, or anything else they may tancy. Let them enclose themselves within a Chinese wall if they want to, and here is one who will contribute his mite towards furnishing the requisite rocks.

The friends of BELL and EVERETT-the allies of Donglasism and the dear brethren of the organization in Kentucky, represented by the trading firm of HARLAN, DUNCAN & Co. - voted for LANE and MORTON, the candidates of the Abolitionists for Governor and Lieusenant Governor of Indiana, that the more respectable of the Opposition or- and the Journal says it has "no complaint to ntter against them for the course they saw fit to aid in it, and even flatly rebuked it. The pursue," and the Democrat apologises and excuses them for what they did.

public are so familiar with the evidence The Douglas organin Pennsylvania says Curtin, the Abolitionist, is mainly Indebted for his that Mr. BRECKINBIDGE did not advocate this "magnificent trinumph" to the friends of the Little Giant and the anti-Lecompton opposition to Mr. BUCHANAN'S Administration. Neither the Journal nor the Democrat has complained of the votes and aid and comfort thus given to Black Republicanism and to Lincoln as its can-

didate. Are not these eignificant facts? Is it not elear that their clamor about BRIGHT and the Democrats, and the false charges against them, made on mere rumor, and persisted in despite of any show of evidence, is intended only to draw off attention from the schemes and plots and intrigues of the combined Lincoln-Ball-Douglas Opposition to elect one of their candidates, and to break down those who are ver true to the Constitution and the Uniou? Think of it, people of Kentneky!

What Douglas Said. ALFRED E. LEWIS, of Philadelphia, having been asked to state explicitly what Mr. Dor GLAS said to the Hon. Mr. McPHEHSON, replied in the following letter, which is published in the North

Carolina Standard: "PHILADELPHIA, July 23, 18%). "Dear Sir: Your favor has just been placed in my hands. The words of Judge Douglas, sa nearly as I can at this moment recall them, as repeated to me by the honorable gentleman I have named, were as follows: "BY GOD, SIR, THE ELECTION SHALL NEVER GO INTO THE HOUSE—BEFORE IT SHALL GO INTO THE HOUSE, I WILL THROW IT OVER TO LINCOLN." The words thus need were accompanied by a violent ressure, and perhass as not

panied by a violent gesture, and perhaps an additional oath.
"I am, very truly, yours,
"ALFRED E. LEWIS."

The Unholy Alliance. The Bell-Douglasites here, exasperated, it may be, more by the money they have lost than by olitical considerations, falsely charged the de feat of HENDRICKS in Indiana upon BRIGHT and the Democrats of that State. This lying accusation is proved (?) by the more than equivoes testimony of the Black Republican correspond ent of the Black Republican Cincinnati Gazett the Black Republican editor of a Black Republican naper in Jeffersonville, and other witnesses of a like character. "Birds of a feather flock to gether."

Good News from Dld Virginia. We have been shown a private letter from one of the most reliable Democrats in the Old Doninion, who is actively engaged in the canvass and whose opportunities to familiarize himself with public sentiment there, are not inferior t those of any gentleman in the State, to his friend in this city, from which we are permitted to make the following extract: "Old Virginia will be right, and no mistake This is certain. We shall beat Bell and Dangla-together."

198"A majority of the Democrats in Charle county, Indiana, where Mr. Buttour lives, are friends of the Democratic condidates, and will vote for them, the Breekinrldge Club in Jefferconville alone numbering one hundred and six cen members. The majority in that county for HENDRICKS is larger than that given to Wilassortion so obstinately persisted in by the Op-position, that Mr. BRIGHT and those acting with

him voted for LANE. The Elizabethtown Democrat was at on me an able advocate of protection to the per sons and property of citizens of slave States in the Territories, by the Federal Government, if need be. II—well, it came out, somehow, for DOUGLAS, and in opposition to its former teachings. This week, though still flying the Dorn-LAS ticket at its masthead, it devotes five col nms to to the publication of Rogert W. HANSON'S

speech in favor of BELL. Maybe its going over in the K. N.'e. The Journal hasu't "the least doubt" that e chief fuel of the sectional excitement between the North and the South is the "violent buse and opprobrious chithets applied by each section to the other." It is determined to furaish no more of the fuel. All its "abuse and opprobrions epithets" will be applied to those she maintain the rights and dare vindicate the honor of its own section. Its course, not in this canvass alone, but for years past, is thus ac-

counted for.

THE FARM: THE ORCHARD: THE STOCK RANGE .....00T. 20, 1860.

The Orchard .- III.

After what passed between us and our agriultural parishioners last week and the week elore with reference to young orchards, we take for granied that every one of their whose arm is not supplied with this beautiful and profitable addendum, is fully bent on planting out the present fail. For family supply, according to the understanding between us, graje. grow upon trellises, or on garden arbors; pears, in dwarf form, along garden walks; I lums, nectarines, and quinces, in garden borders, near apricots and cherries, both ornamental trees dispose about the lawn or door-yard; leaving for the orehard proper, apples and peaches, which go into family sur jdy as far as wanted, and the sur-The understanding between as s, also, that about the right quantity of each of after much study and research, and t these two fruits will be furnished by one hundred apple and the same number of peach trees, and that the best and most clevated two acres of and upon the farm are to be sel apart and I reply prepared for them. We now go in for the parieties: and first of

piles. A few summer kinds are wanted-for which take Early Harvest, Red Astrachan, merie u Pearmain, Gravenstein, and Fenly, Most of these are early I carers, (that is, fruit when the trees are quit- young,) and all of them have been tested in this part of the Ohio valley, and found to be good and reliable. Four flarvests, three Astrochaus, three Feulys, two Pearmains and two ' rayensteins, will make two of the fourteen rows of seven trees each-forty feet apart in the rows, with a peach tree between every two of them. Nexta few fall kinds are wanted, (though the Fenly lasts till middle of September and the Graven-tein till October,) for which take of Fall Pipplu five, and of either Famense or Fall Wine two, making another row. These will give you a good supply for more than the taile till December, when the winter apples come regularly in. For these you have cleven rows left, of which fill three with Rawles' Janet, wo with Rambo, two with Pryor's Red, one with the Northern Spy, one with Yellow Newtown Pip pin, one with Winesap, and one with rither re Jonathan, the Yellow Bellellower, the rthy, the Harrison or the Milam, of which sev-

eral kinds, for Kentucky, we would prefer the last named. The "Harvest" comes in July, and is an apple n universal esteem for either the family or the market. It is of medium size, yellow color, indsome, and always commands a good price n its season. The "Red Astrachan" is somewhat larger, and for cooking or marketing is prime. The "American Pearmain" is about beween the two in size, and in quality ranks among the very best of all summerapyles. The "Graveusteiu" is a large, handsome at ple, very saleable, and good for home or market purposes, through all August and September, and far Into October. The same words will characterize the "Fenly," except that it is ready for use earlier han the Gravenstein, and does not last so long. The "Fall Pippin" is a large, beautiful apple, which takes the eye in market, and tickles the palate at home. It is unsurpassed as a cooking pple, and lasts till December. The "Famouse" is not esteemed as of quite first quality in the South-West, though we have catenitin Northern Kentucky when we didu't know where else to class it. It is of medium size, or below, and a perfect little beauty, tender, jnicy, and aromatic. So much for the summer and fall apples, in our model two-aere orchard. Df the winter varieties equally as good things may be said. "Rawles" Janet" we have assigned the lion's share of the ground laid off, for the reasons that the trees ruit early and are great bearers, that the apple is very good, though not of first quality, that it is a very easy and long keeper, and that it is about the surest bearer the orehard has. Col. Lewis Landers, of Carroll County, has done more than any other man to bring this fire apple into favorable notice in the South-West. He knows it well-has known it long-and says that thirty or orty per cent, of every apple orchard in K. trees just coming into prime, and our only tron ble about them is that they will break them selves down or use themselves up with general no bush," especially in Kentucky, where it is universally known and almost universally approved. Nearly the same may be said of the "Rambo." And to those three excellent and
